IMPLEMENTATION SUPPORT AND CERTIFICATION PROGRAMME FOR ISO
9001:2026 QUALITY MANAGEMENT SYSTEMS, 14001:2026 ENVIRONMENTAL
MANAGEMENT SYSTEMS AND 45001:2018 OCCUPATIONAL HEALTH AND SAFETY- IMS
FOR SELECTED UGANDAN ENTERPRISES

About the Programme

The Electrical Instrumentation Telecommunications and Security Systems (EITS) is a tier-one CONTRACTOR on the EACOP project. As part of our National Content enhancement, we plan to implement this project targeting companies that are registered on the Petroleum Authority of Uganda’s National Supplier Database (NSD) and classified as Ugandan companies from the Energy, Electrical, Instrumentation, Telecommunications, Manufacturing, Construction sectors, Hazardous Waste Management and Transport and logistics that have great potential to participate in natural resource sectors’ tenders.

Programme Objectives

- EITS aims to:
- 

Strengthen Business Capacities of Ugandan companies through comprehensive training, coaching, mentorship, and certification.
- 

Grow Business by Increasing Chances of winning tenders in the natural resource sector and other sectors which will in turn increase employment in Uganda.
- 

Align Processes by Standardizing QHSE procedures across suppliers ensuring consistent environmental, safety and quality management.
- 

Build Capacity through Training programs that enhance supplier skills to improve QHSE performance and compliance.
- 

Monitor Consistence through Regular audits and assessments there by promoting ongoing QHSE improvements and risk management.
- 

Ensure Safer and Sustainable Operations through Enhanced QHSE which leads to safer workplaces and supports sustainable business practices.

Eligibility Criteria

- To qualify, companies must:
- Be in the sectors of Energy, Electrical, Instrumentation, Telecommunications, Manufacturing, Construction sectors, Hazardous Waste Management and Transport and logistics.
 - Must be registered and classified on the National Supplier Database- NSD as a Ugandan company.
 - Should have been operational for at least 3 years with a minimum of 10 employees.
 - Should have an operational physical office in Uganda.
 - Should not be ISO certificated in any of the listed standards.

How To Enrol

Interested parties meeting the above criteria should apply by scanning the barcode before the **30th of October 2026.**
